Things to Do With Your Family Member Who Is In a Care Facility

- Visit, sit and talk with the person, ask how they are and tell them how you are and don’t give advice.
- Bring friends and family members to visit. Don’t forget children or old friends of the resident.
- Visit another resident together.
- Take on outings: go for a walk, out shopping or for a snack. If your family member does not feel well enough for a long outing you can visit out of doors at the facility.
- Attend a scheduled activity program together.
- Do personal care: give a manicure, a massage, do their hair. Any activity that includes touch is very important and beneficial.
- Take your family member to meetings. He or she may have belonged to community organizations or religious groups.
- Bring simple work that needs doing. Work on Christmas cards along with the resident.
- Watch a TV show together.
- Bring photographs and letters to read together. Either old familiar ones or recent ones.
- Play games: card, word or other games.
- Exercise: the nurses or therapists may be able to suggest simple exercises such as making circles with arms, legs and head.
- Reading: read the newspaper, poetry, short stories or a novel in serial form if appropriate.
- Ask questions: ask your family member something you have always wanted to know about him or her. You may want to tape some of these memories as part of a family history.
- Decorate: change or add things to the physical environment. Bring things that are orienting such as clocks, calendars, or stimulating such as a radio, T.V. or paintings and pictures. Change things around. A room can get monotonous and we all need a change of scenery.
